PROFILE

Data automation analyst with a computer science background and hands-on experience building healthcare workflow automation, internal applications, and data-quality controls using Python, JavaScript, SQL, Retool, Selenium, and Playwright.

TECHNICAL SKILLS

Languages & data: Python, JavaScript, SQL, PostgreSQL, StarRocks, Pandas, NumPy

Automation & delivery: Retool, Selenium, Playwright, REST APIs, Git/GitHub, QA validation

Application development: Django, React, Oracle DB

EXPERIENCE

Senior Data Automation Analyst

Augmedix Bangladesh (Commure) | Feb 2025 - Present

Joined February 2025; promoted to Senior in March 2026

- Redesigned the Submissions Funnel and Error Tracker Retool apps using parallel, chunk-based queries and Retool DB caching; extended the architecture to the Enrollment dashboard.
- Migrated heavy queries to StarRocks and replaced 96 instances of deprecated logic to improve data-processing reliability.
- Built Retool-triggered and scheduled remediation workflows that reduced the import-error backlog from approximately 18,000 to 4,000 in three weeks.
- Co-developed the Bangladesh team's first automated eClinicalWorks encounter-volume extraction with a colleague; independently extended coverage to Hellonote, NextGen, and AdvancedMD.
- Restructured regeneration and resubmission workflows to distribute processing over time, flag failures, and automate three additional submission-error categories in H1 2026.
- Built 20+ workflows and three dashboards in 2025, supporting more than $10M in tracked claims value and an estimated 70 team hours of manual work saved per week.

Undergraduate & Graduate Teaching Assistant

East West University | Apr 2022 - May 2024

- Tutored students and evaluated assignments and lab tests across six computing courses, including algorithms, databases, AI, and software engineering.

SELECTED PUBLICATION

Unveiling Microorganism Diversity through Neural Network-driven Classification

Co-author | IEEE COMPAS 2024

- Contributed code for data preprocessing and model training, and wrote sections of the paper.

EDUCATION

BSc in Computer Science and Engineering

East West University | Jan 2020 - Jun 2024

CGPA: 3.88/4.00 | Magna Cum Laude | 100% merit scholarship

CERTIFICATION

SQL (Intermediate), HackerRank
